

Velie

The Outstanding Triumph of 1922 VELIE - BUILT MOTOR

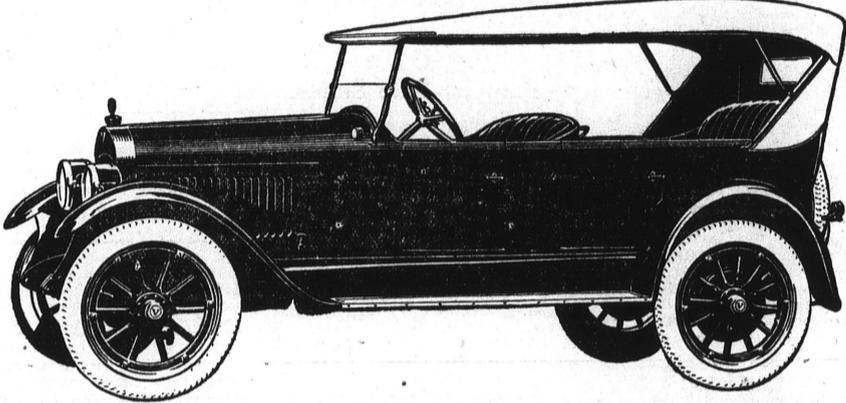

"THE MOST REMARKABLE MOTOR WE HAVE EVER DRIVEN!"
"Unbelievable Smoothness!" "It certainly sets a new mark in performance, fuel saving and the pleasure of motoring." These are typical expressions of owners of Model 58, with its six cylinder Velie-Built Motor. Here at last is the power plant that you knew Velie would have some day.

Vibrationless, Automatically Lubricated Dirt and Dust Proof

But this is only the beginning of the story. You should see Velie's accomplishment in overhead valve construction, with every part directly oiled by pressure, even the piston ring. You should see the big four bearing crank-shaft and a score of other features that make the Velie-built motor the most sensational automotive triumph of years.

This is why we chose the Velie Six.

We have looked the field of Sixes over for a long time and tests and trial runs have proven the Velie to be the most perfect Six. The new models are now in our show room, the first to come into this territory. Before we chose the Velie Six we examined the whole care from headlights to gasoline tank and drove it out on the road to see what it could do. Now, I'll admit, we automobile men are apt to get a little too enthusiastic about our cars, but honestly, this one surprised us and we want it to surprise you. Phone 106 for demonstration and be convinced.
